

SEISEN-RYO

SINCE 1938

Accommodation

Facilities

Located in the highlands at the foot of Mt. Yatsugatake, Seisen-Ryo is surrounded by woods with a great view of Mt. Fuji. It is ideal for families, couples, or friends to spend a pleasant time together, enjoying nature and a visit to our dairy farm. In 2009, the New Lodge and Hot spring facilities opened to offer a new experience of luxury and comfort to our guests.

New Lodge

Our new "Home", New Lodge

The high and open ceilings of the lounge are a new feature of our New Lodge, attracting many guests with its brightness. By the window of the guestroom, in a calm atmosphere, you can enjoy a wide view of the forest and the Kawamata valley. Attached with the hot spring facility, the New

Lodge has a total of 20 guestrooms in different styles, a Japanese style room, Western style room with a fireplace, or a Maisonette.

Old Lodge

Classic and warm atmosphere

Guests can experience the classic and warm atmosphere of the wooden interior of the Old Lodge. It promises a simple, cozy and relaxing stay. The Old lodge has always been a favorite to many who prefer a feel-at-home stay full of charm and restful lighting.

Cottage

As private as your own villa

In the forest, just a walk away from the Old Lodge is Seisen-Ryo's 15 Cottages. Guests will experience a relaxing time as they enjoy a fireplace or wooden stove in their own private living room.

Hot spring

"Seisen no Yu", a free flowing hot spring

Our hot spring facility features a source rich in sodium and magnesium carbonated water (low osmosis, weak alkalinity, high

temperature spring), considered one of the best in Japan for its temperature, quantity, and quality, which eases your mind and body, freeing you from your daily routine, or providing a refreshing pause after enjoying a walk in the woods.

Restaurant

Our healthy and colorful dishes served at Seisen-Ryo's restaurants, including Old Lodge, New Lodge, St. Francis Discovery Center, and the Youth Camp, are prepared mainly with vegetables grown in the Kiyosato highland by local farmers.

Relish our "local flavors of Yatsugatake" with your five senses

Enjoy our delicious and healthy meals after finishing your outdoors activities, workshops, or conferences.

The New Lodge Restaurant serves western dishes in a buffet-style while making the most of local flavors by purchasing seasonal local products from nearby farmers, promising our guests safer and more reliable meals.

Our colorful and cheerful dishes attract everyone, even children who might not usually eat enough vegetables. Enjoy our handmade sweets, especially desserts made from Jersey milk from our dairy farm. For breakfast, we offer western dishes like handmade bread, as well as Japanese style dishes for those who love rice and miso soup in mornings.
